TOPEKA, Kas., Aug. 17.—Governor Bailey will grant no pardon to John Collins. In taking occasion to deny that he will pardon Emmet Dalton, the notorious Coffeyville bandit, Governor Bailey includes Collins in his list of those who will not be pardoned.

"In order to set at rest all rumors and reports, I want to announce that Emmet Dalton will not be pardoned while I am Governor," said Governor Bailey to-day. "I want it best to make this announcement now, inasmuch as it is reported that Dalton's attorneys are getting ready to present the pardon application again. The pistol was discharged, the ball lodging in the breast of his younger brother, causing instant death.

GRAND ARMY HOSTS SAN FRANCISCO.

City Brilliantly Illuminated in Honor of Opening of the National Encampment.

FIGHT FOR NEXT GATHERING.

St. Louis, Salt Lake and Denver the Chief Competitors, With Sentiment Strongly in Favor of World's Fair City.

BLACKLIST IS NOT UNLAWFUL.

Federal Court Holds that in the Absence of a Contract Each Party Has an Equal Right to Sever Relations.

San Francisco, Aug. 17.—The members of the Grand Army of the Republic, who have been arriving by every train for the last week to attend their thirty-seventh annual national encampment, were treated to a genuine surprise to-night.

As they came from the East and South they had noted that the city was in gala attire. They had seen business buildings decorated in the national colors, and had casually observed the wires strung across the principal streets.

The twin Gothic arches erected in the center of the business section of the city also came in for a share of appreciation.

But this gave way to admiration as darkness fell and the electric current was turned on.

Then suddenly, as if by the call of a magician's wand, the city was transformed from its daily commercial aspect into a veritable picture of delight.

The Gothic arches spanning the principal avenues, elaborate in their decorations and crowded with flags, burst into bloom, each a marvel of color and artistic design. Possibly nothing finer had been in America—certainly nothing so heavy in this city.

Glancing along Market street, the city's main thoroughfare, the eye was met at every point by the national colors, which bore the national colors, swinging from slender waves of wire. The evening was a perfect one so far as weather was concerned, and the streets were thronged until a late hour with visiting veterans and their friends.

The events of the day were of the routine order. Arriving delegations were received and escorted to the quarters assigned to them, old friends exchanged greetings, and many excursions were made to nearby points of interest. To-night receptions were held by several California and Nevada points.

St. Louis and Salt Lake are the chief competitors of Denver in the contest for the meeting place of the national encampment in 1904.

All three cities are making strong lights, but St. Louis stands a good chance of carrying the prize.

The point of departure presented to visitors to the U. S. A. reunion will also have an opportunity of seeing the World's Fair has much to be said in its favor.

The arrival of General Miles, who is still being urged by many of his friends for the position of commander in chief, has added great interest to the occasion. The general, however, still declares that he is not a candidate, and reiterates his previous statement that he will not oppose the election of General Black.

FARMERS ORGANIZE UNION TO RAISE PRICE OF WHEAT.

Co-operative Association of America Will Put Two Hundred Agents in the Field.

REPUBLICAN SPECIAL. Guthrie, Ok., Aug. 17.—The Farmers' Co-operative Association of America, organized under the laws of Oklahoma, to secure and maintain better prices for farm products, and specifically to force the price of this year's wheat to \$1 a bushel by storing and holding the supply in elevators owned by the union, has succeeded in effecting a union of all the wheat growers in the state.

A. J. Williams, general secretary, who has been in the field for some time, said that the union would have 200 agents in the field, and that the union is now about 15,000 members in Oklahoma and Kansas.

"We expect to organize Oklahoma, Kansas, Nebraska, South Dakota, North Dakota and Minnesota, and reach a membership of half a million."

The union is declared to be nonpolitical, and if any officer should become a candidate for any political office, except a township office, he would be automatically vacated at once.

INSANE PRISONERS RETURNED.

Seven Convicts Sent Back to Territory From Kansas.

REPUBLICAN SPECIAL. Guthrie, Ok., Aug. 17.—Governor Ferguson to-day ordered returned to the Territory the following prisoners, now in confinement at the Lansing (Kas.) Penitentiary, who have recently been adjudged insane: Enoch H. Armstrong, Logan County; William J. Combs, Comanche County; Frank Ellis, Logan County; Mary Conery, Lincoln County; Conrad Maas, Blaine County; John J. Dandoe, Logan County; John Sparks, Canadian County.

The terms of the new contract were entered into last week between Governor Ferguson of Oklahoma and Governor Bailey of Kansas for the care of the Territory's prisoners. These are the first to be returned under the new contract.

A peculiar feature of these commitments is the fact that every prisoner ordered returned to the Sheriff of the county was convicted of murder and received life-imprisonment sentences.

QUARREL OVER FLOOD FUNDS. Kansas Man Appeals to Court for an Injunction.

REPUBLICAN SPECIAL. Topeka, Kas., Aug. 17.—The first flood relief fund quarrel reached the Supreme Court to-day. It came from Argentine, and results from the manner in which the relief fund is being used.

John M. Tipton, who is the plaintiff, says he is entitled to the Argentine flood sufferers. He names as defendant the members of the Relief Fund Committee and says they have received \$20,000 from charitable inclined persons all over the United States for the benefit of the flood sufferers.

About \$2,000 has already been received by the fund itself, repaying side-walks, pavements, culverts and other public property. This Tipton alleges is wrong, and that the money should have been given directly to the flood sufferers, personally.

He asked the District Court to restrain the disbursement for an injunction to restrain the disbursement of the fund in that manner. The injunction was granted, and the Court of Common Pleas dissolved it. Tipton then appeals to the Supreme Court.

ATTENDANCE RECORD BROKEN.

Great Interest Manifested in Markham Memorial Tent Services.

Records for attendance at evangelistic tent meetings in the city were broken Sunday night, when 1,400 persons were present at the services in the tent "Glad Tidings," where meetings are being conducted under the auspices of the Markham Memorial Presbyterian Church.

The services this week are being conducted by the Reverend Robert Layfield, the newsboy evangelist from Kansas City, Mo.

The services next week will be under the direction of the Gideons, an organization of traveling evangelists, and will be held in the tent "Glad Tidings," which is expected to be present and lend his assistance.

He asked the District Court to restrain the disbursement for an injunction to restrain the disbursement of the fund in that manner. The injunction was granted, and the Court of Common Pleas dissolved it. Tipton then appeals to the Supreme Court.

Hamilton will begin his labors here the first week of September by conducting a tent meeting in Maplewood.

TELEGRAPHERS' UNION DENIES DISSENT.

Western Union Employees Can Be Discharged at the Company's Discretion.

BLACKLIST IS NOT UNLAWFUL.

Federal Court Holds that in the Absence of a Contract Each Party Has an Equal Right to Sever Relations.

SEEK TO DESTROY UNION.

The second ground of complaint was that the defendant, its officers and agents have unlawfully combined and conspired to destroy the telegraphers' union.

The court in its opinion stated: "I need not take time to multiply authorities to show that there is no such thing in law as a conspiracy to do an unlawful thing."

If the last allegation means anything, it is that the defendant, its officers and agents have conspired to destroy the union by discharging all of its members in its employ and refusing to employ others solely because they were members of the union.

But the plaintiffs say that the defendant, its officers and agents are seeking to prevent those discharged from obtaining employment as telegraphers. But how are they seeking to do so? What are they doing? Are they doing acts that are unlawful? If so, what are they?

There is no allegation in the complaint that there were no contractual relations between the plaintiffs and the defendant to retain the plaintiffs in its service at any given period.

Yet, in the event that such contract existed, could it give no relief. The remedy is at law for a breach of contract, and each man injured must sue separately, in his own right, for such damages as he may be entitled to.

"It would be intolerable if a man could be compelled by a contract to serve another against his will, or if a man could be compelled to retain in his employ one who does not want him."

In denying the power of a court of equity to enjoin the Western Union Telegraph Company from maintaining a blacklist, the court said:

Suppose that a man should file a bill against the Western Union Telegraph Company, alleging that the company, by the aid of the American and Ancient Order of Freemasons or to the Grand Army of the Republic, had conspired to discharge him solely on that account; that he discharged others in his employ and intended to discharge all of them for some reason; that he kept a book containing the names of all such discharged persons and intended to employ only those who were not on the list; and that he had given such information to others who refused to employ such persons on that ground.

Is it possible a court of equity could grant him relief? Would he be entitled to it? This is a parallel case to that made by the bill.

Judge Rodgers gave the complainants fifteen days to file an amended bill of complaint.

AGE DESTROYS CONTENTS OF CHURCH CORNER STONE.

The coins were three 5-cent pieces, a dime and a half dime. The oldest coin was the dime, which bore the date 1853. The Bible was damp throughout, and with difficulty the pages were separated. Several pages still retain the print, but from most of them the ink has faded.

SLATE ROOFERS PAY FOR FUN. Heavy Fines Against Men Who Tortured Gussie Schultz.

Charles Parker and Joseph Fox, slate roofers, who for amusement on July 27 tied a rope around the body of Gussie Schultz, 10 years old, and hauled him to the top of the Pestalozzi School, were convicted yesterday afternoon by Judge Moore in the Court of Criminal Correction.

"I find that Fox is not so much to blame as Parker," said Judge Moore, in passing sentence. "He will be fined \$50 and costs, and ten days in the Workhouse."

"As for Parker, his fine shall be \$100 and costs and ten days in the Workhouse."

"If there has been a case where a more brutal assault occurred since I have been on the bench," continued the Judge, "I do not know of it. I can conceive of nothing more brutal than for two men to tie a rope around a little boy's body and drag him up in the air sixty feet, thus imperiling his life."

Gussie Schultz is a son of August R. Schultz and lives at No. 1801 South Seventh street.

BROUSIOUS CHARGES NOT NEW.

Interior Department Has Long Been Investigating Land Deals.

WASHINGTON, Aug. 17.—Scott Smith, private secretary to the Secretary of the Interior, said this morning that there was nothing in the report of Special Agent Brousius of the Indian Rights Association which the department did not know before.

Mr. Brousius had reported that Trans Bixson and other officials in the Indian Territory had secured several large tracts of land, which they bought Indian lands in land companies and sold them to the government at a profit.

Mr. Smith said the department had received similar complaints for months and had granted the special instances of alleged fraud in the Indian Territory are accused of making profits in the sale of land.

Mr. Smith said the department was not making progress, and that all that had been done was to turn over to the Department of Justice, with a view to instituting criminal proceedings, but so far nothing has developed which would warrant indictments.

The Department of Justice is also interested in the case because several of its officials in the Indian Territory are accused of making profits in the sale of land.

Keep Your Insides Cool!

Here's a man who thinks he has heart disease, and is scared half to death. His face is all drawn out of shape from fear and agony. Every time he eats, his heart "palpitates"—that simply means that his stomach is swelled up with gases from fermenting undigested food, and his heart thumps against his diaphragm. Nothing the matter with his heart. In the summer time, this gas distention is much worse, his whole body and blood get over-heated, and his heart and lungs get so crowded for room, that he gasps for breath. There he is, look at him! Every minute he expects to drop dead. As a matter of fact, all he needs is to stop that souring and gas forming in his stomach and bowels, help his digestion along, and keep cool inside. You all know that whenever something rots or decays, heat develops. Same in the body. Keep cool inside! Take a candy cathartic CASCARET every night at bed-time. It will work while you sleep, clean up and cool your insides, give you a regular, comfortable movement in the morning, and you'll be feeling fine all day every day. Heart Disease! Fudge!
